ATTN: Examiner

Dear Sir/Madam

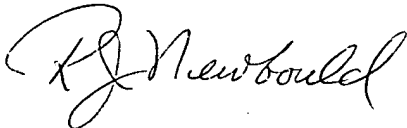

Re: The enclosed application for a utility patent titled "Modular Indexing Workholding System".

I have tried my best to make a clear and complete application.

I have not enclosed an application data sheet because I could not find a form on the website for such a sheet, and according to the instructions for filling out said sheet, I have no information that I know of to include on it if I had one.

I would request examiner assistance wherever possible, and needed, to clarify any language, drawing, or additional information to make this application more acceptable.

Thank you for your kind attention.

A handwritten signature in cursive script, appearing to read "R. J. Newbould".
